## **Family chooses waterfront dream home**

**An interview with Jono & Adrienne Wishart**

***By Christina Lockington, PR Consultant, Blue Horizon Property Group***

Deciding to purchase a home is one of the most significant decisions one can make in life, and it can be quite an overwhelming process especially for first time home-buyers. Buyers or investors usually prefer to find a location that allows them to easily access places they frequent such as work, school, place of worship, shopping, friends, family and recreation. Other factors such as payment terms, infrastructure and the environment are also usually taken into consideration.

Jono and Adrienne Wishart are proud, soon-to-be new owners of a luxurious 3-bedroom, 2 bathroom unit with an enormous wrap-around balcony right on Suva harbour in the brand new Uduya Point Apartments. They happily shared their story about what led to their home-buying decision.

**Q:** How did you hear of Uduya Point Apartments and what are some factors that were key in your home-buying decision? *A friend of ours forwarded the very first sales brochure prior to construction, knowing Pacific Building Solutions was undertaking the construction, we didn't hesitate to get involved from the start.*

**Q:** With whom will you be sharing your amazing new home? *Our growing family.*

For price listing & other details visit [www.uduyapoint.com](http://www.uduyapoint.com)

**Q:** Tell us of your favourite features of Uduya Point Apartments? *The location in relation to Suva city, close enough to do business with ease and far away enough to enjoy privacy and peace away from the bustle of the city. The direct harbour access was a key point in choosing to purchase at Uduya Point Apartments.*

**Q:** What are you most looking forward to doing, the moment you step foot into your home? *Writing a letter to Suva council about removing the rotting fishing boats wrecking the view and the environment!*

**Q:** Do you have any remarks about the physical infrastructure of Uduya Point Apartments or the Uduya Point neighbourhood in general? What might've created an impression for you, in dreaming up your stay in one of these apartments?  
*The direct water access again is the main reason Uduya Point Apartments was so appealing, we look forward to utilising the marina berths when they are built.*

Just ten minutes from Suva's central business district, residents of the Apartments will enjoy freedom from the hustle and bustle of the city, arrive home to their own ocean-front home but still have access to all the major attractions of city living. Traveling business executives, diplomats, expatriates and like-minded locals and professionals will find their haven nestled in Uduya Point – with magnificent ocean views and trade winds constantly providing fresh sea breezes.

Pure love for the natural environment around Uduya Point Apartments was also a driving force behind Jono and Adrienne's decision to purchase their new home. The couple have set their eyes on helping protect ocean life that surrounds the apartments. It is their ambition to reach out to concerned authorities to ensure the waterfront and sea life is kept in a pristine and healthy condition.

If spending your moments at home in a warm and sunny, ocean-front locale with amazing views to Suva city enjoying the fresh trade winds, then Uduya Point Apartments would be the perfect place for you too!
